IPeople Promotes Stephen Jones

to

Vice President of Operations

Lewisville, TX, - July. 19, 2016 - We are excited and proud to announce that IPeople has promoted Stephen Jones to Vice President of Operations. Stephen joined the IPeople team in 2007 and over the years he has helped lead IPeople's integration services, support, and operations. Stephen has over 19 years of experience in the healthcare industry, including 10 years where he served as a system analyst, financial report writer, and network manager for a hospital.

"Over the years, Stephen has been a tremendous asset to IPeople and has always served as a strong leader with incredible values and skills. In his new role, Stephen will oversee all aspects of operations, help set strategy for the company, implement strategic goals, and ensure vision is communicated effectively throughout the organization. IPeople is always striving to delight our customers and Stephen will play a very important role in our goal for continuous improvement of quality, delivery and support. His strong desire for excellence makes him an incredible asset to both our customers and the IPeople staff."

– Jenny Blue, CEO & Co-Owner

For two years, Stephen has been a member on IPeople's executive team and he will continue to serve on the executive team in his new position. Additionally, Stephen will play an important role in helping set and drive the goals of the organization. We are thrilled to have Stephen as the Vice President of Operations and look forward to seeing what new aspects he will bring to this role.

About Interface People, LP

Interface People (IPeople) is an integration company providing the MEDITECH industry with innovative solutions and professional services to simplify the interaction between users and their data. Committed to increasing work efficiency, while offering layers of flexibility in their products, IPeople supplies the healthcare industry with tools to assist both technical and non-technical users. IPeople has revolutionized the MEDITECH industry by providing affordable, high-quality products and services that provide easy access to MEDITECH's health information system for better data management and quality patient care.
